## **CONCORD SETS RECORD-HIGH FOR RECYCLING**

In the month of December, the City of Concord set a new record-high for most tons of recyclable materials collected at the curb, with 352 tons collected. Residents are reminded that every ton of material diverted from disposal to recycling means a savings of their tax dollars.

### TREE REMOVAL AT OLD NORTH CEMETERY

This past Monday, Mayer Tree Service removed a very large Ash tree located near the Stickney Tomb in the Old North Cemetery. The tree had been struck by lightning several years ago, was in severe decline and had the potential of falling over and damaging or destroying multiple monuments or the Stickney Tomb if it fell. Mayer Tree Service was selected, as the tree needed to be removed via crane. The tree company utilized one of their 120' cranes and removed the tree in sections over the monuments, fence and utility lines. The whole process of mobilization, removal and clean-up took less than 5 hours. Thanks to Tree Crew Supervisor Ryan Rambeau and his crew for coordinating and assisting with the contractor's efforts.

# PARKS & RECREATION SPRING/SUMMER BROCHURE

The Parks & Recreation Department's spring and summer brochure is now available. brochure features programs for March-June, as well as all of our summer camps. For more information or to register for any classes, lessons or camps, visit www.concordparksandrec. Brochures will also be com. sent home with all students who attend Concord elementary schools.

# TAX FORMS AT THE LIBRARY

The Concord Public Library is still THE place in town to pick up free tax forms and instruction booklets. We have a large supply of forms on order, but they will not be shipped until later in February. This downloadable list shows which publications the Library has received to date. Forms and publications can also be accessed at www.irs.gov.
